## **INTERNSHIP DESCRIPTION**

Cabin Creek Films has produced many award winning nonfiction films including *Harlan County USA*, *American Dream*, *Wild Man Blues*, *My Generation*, and *A Conversation with Gregory Peck*. Our nonfiction productions for television include *Fallen Champ: The Mike Tyson Story*, Disney's *Friends for Life: Living with AIDS*, and ABC's *The Hamptons*.

Cabin Creek Films is currently in production and pre-production on several nonfiction projects. Some projects are in the development phase; others are preparing for production. We are also involved in the pre-production of narrative projects, though the internship will primarily focus on nonfiction films.

This internship will focus on research and development and post-production. The intern will receive training in and be responsible for transcribing shot tapes, logging tapes, dubbing, helping manage tape database/library. Interns are often asked to do Internet research and make phone calls to inquire about acquiring archival material. Other duties include messenger runs, occasional office upkeep, and some filing. When possible the intern will be invited to accompany and assist production crews on local shoots.

### **Commitment:**

We require a minimum commitment of 20 hrs per week from interns. The duration of the internship will be approximately three months.

### **Compensation:**

\$15/day for meals and transportation. School credit is available.
